counting noses after all had arrived at Hotel de Burt it was found that twenty-five were there and after a bountiful supper all repaired to the lodge room where they were met and welcomed by Capac Chapter. Introductions to local members, visiting and installing officers from the Grand lodge made pleasant a few minutes and the lodge was called to order. The exemplification of degrees was gone

Short addresses from visitors and a fine program by local talent made the evening very pleasurable, and at the close of lodge all were invited to the hotel diningroom where the ladies had spread a dainty lunch. After doing justice to this, many thanks were given the Capac ladies for their kind invitation and the delightful evening prepared, norses were ordered, good nights were spoken and homes were reached in Yale by 2:30 Thursday morning. The ladies all agreed that every minute from the time they startpresent. every minute from the time they started till they arrived home, was a delight.

An Oily Talk.

Our friend Bow came to the rescue of the Standard Oil Company in a recent issue of The Hustler. The public, of course, knows that our local merchants are not to blame for the price of oil. And now we are glad to know more, and that the Standard Oil Company is CAPITAL. - \$50,000.

possess should so abort and the people have to pay more for oil.

Either Mr. Bow is standing in the shadow of his oil tanks and don't see clearly, or the biggest liars on earth are in Canada, Sworn testimony was taken before the Dominion Commissioner last week which went to show that the An invitation was received by Yale Chapter OES last week from Capac Chapter to visit them on Wednesday evening of this week and a number accepted and drove over in the afternoon. Counting noses after all had arrived at Hotel de Burt it was found that the Standard Oil Company were doing all they could to limit the supply and push up the price in Ontario. Perhaps in crossing the line the company meet with a change of heart. The sworn testimony goes to show that relining plants are being bought at three times the cost value shut up and abandoned

will get it cheaper.

The sworn testimony shows further that all railroads were under control of the same benevolent Standard Oil Company, and that double rates were and the lodge was called to order. The exemplification of degrees was gone through with very nicely by the chapter which has not been organized a great while as they received their charter this night. The installation ceremonies were performed by Grand Worthy Matron Mrs. Balmer of Mt. Pleasant and Grand Marshal Mts. Bigelow of Owosso. Grand Worthy Patron Brown of Lapeer was also present.

Of the same benevolent Standard Oil Company, and that double rates were charged on all competing oils—to make them flow into the Dominion in more abundance, of course. These same lying witnesses told a further fact inferentially. The five cents per gallon tariff on oil is not wanted by the Cannuck people at all, but it is to help the standard Oil Company compete with oils from the States.

We don't believe the Dominion Company.

Lovett's Boston Stars.

A newspaper is commonly supposed to reflect public opinion, and we had thought to fill this part of our mission in this issue by giving a picture of the Boston Star entertainment last Monday night. But, alas! we are in the midst of "confusion worse confounded." Public opinion is a fickle and also a frisky thing, and will not often stand still long enough to be taken. Tastes differ. In some cases there is not even taste. Our interviews with patrons of the concert reveals forty-nine distinct opinions as to its merits or demerits, and we have only heard from two pre Some Remedies Discussion.

Maude Bryant cincts out of twenty. Some say the E. C. Blackney Stars "fell" below last year's general orbit; some that the fiddling was fine, but impersonating no good or at most just commonplace. Others thought it would have been better with fewer "chestnuts" in it. And still others are found who make no comparisons or criticisms and use only one adjective to describe it in toto—"fine."

To reflect public opinion as to the artists would puzzle us still more. Some thought the manner, dress and looks of one were lovely, while others were equally firm in the opinion that "tother" one was the best looking and superior performer. It is equally evident that a newspaper that would reflect all these views, would have to be edited on the views, would have to be edited on the compound mirror style, and the image would be a medley that none would know. To take all these opinions and compound them chemically or otherwise, might result in very queer tasting stuff, or stuff with no taste at all. And then the combine might result in very soft soap in such quantities as to glut the market.

As for ourselves; we are just old fogy enough to enjoy a lecture better than a concert and so are spoiled for jury duty in this case. But this don't count; for it is evident by the immense audience present and the most money ever taken in at an entertainment in Yale, we are with a small minority. There might have been some chestnuts to a few-but we must remember that these were new to the many. Besides most people expect to find an enter-tainment next door to heaven and perfection. At a banquet we don't need to eat what we have no taste for, and its so with an entertainment menu. The music, the readings, the impersonating we are free to confess are much Never in the history of our business ahead of anything we could do our-bave we been so busy in every depart-selves. And it would puzzle us to find ment as now. Women do not trade here just for the fun of it. It's because they find the right goods at the right prices. The best kid gloves at 98 cents a pair, in any color, any size, or style, and fitted and warranted. Millinery here at \(\frac{1}{2} \) to \(\frac{1}{2} \) what you pay at little sloves and we have the best trimmers. very soon-unless we die.
